## Summary

I'm a frontend web developer who has a lifelong passion for the tech industry. I predominantly work with HTML, CSS and JavaScript, but I am widening my skill set on a daily basis. The most recent library I have begun learning is React.js.

I'm an extremely hard-working, diligent and determined individual who has excellent problem-solving skills, thinks creatively, works well within a team and thrives on new challenges.

## Skill Highlights

HTML5

CSS3

JavaScript

SASS

Bootstrap

jQuery

WordPress

PHP

Git

Materialize

## Experience

**Web Developer** – 2020 to present (<https://edwardleung.co.uk/>)

- Delivering bespoke websites for clients built from scratch using HTML, CSS, JS and a frontend framework such as Bootstrap or Materialize within an allocated time slot.
- Building browser applications using JavaScript, including interactive tools and games.
- Using the DOM manipulation in JavaScript to modify web browsers.
- HTTP requests to communication to a publicly available URL endpoint containing JSON data.
- Coding WordPress websites with PHP for easy edits on a CMS.
- Compiling CSS code using SASS – variables, mixin's, nesting etc.
- Deploying websites via GitHub, inc. SSL certification, DNS records, SEO, meta data.

**Pricing and Revenue Analyst** – 2018 to 2020 (*Easirent*)

- Managing the rate levels for Easirent car hire.
- Always maintain competitive pricing structures to increase revenue and market share.
- Analyzing past and current trends in the market to maximize future sales.
- Perform meetings with the Pricing & Revenue Manager with reports and data management.
- Had to communicate with sales and marketing team on promotions and sales strategies.
